Dear Sirs:-

Mr. Wood has asked me to inform you that in response to our application for a permit to send you the Belgian medal which you ordered from us, we have received from the War Trade Board a letter denying the application, a copy of which we enclose. Apparently the permit to purchase number which you sent us is no longer sufficient, and we suggest that you secure another permit to purchase it and inform us immediately.

Dear Sirs:

I am personally very much interested in the coinage of Metapontum, and I am writing to ask whether you would be willing to send to The American Numismatic Society for examination, such pieces as you may have still on hand of those you listed in your circular, Vol. 21, page 132 to 134 inclusive.

I must be frank in stating that the chances of our Society's acquiring any very considerable number of these pieces is not great. However, several of our members are interested, and Mr. Newell tells me he may find some of them that he would be willing to take, and I therefore have less hesitation in suggesting that you send me these coins than would otherwise be the case.

I would be unwilling, however, to have you send under such conditions, Nos. 1239, 1245, 1257, 1259 and 1266. In these five cases, if you could send me plaster casts, I should much prefer that course.

Kindly state the time you would be willing to permit me to retain these pieces, and whether I might have your permission to make plaster casts of certain of them.

Awaiting your reply, and thanking you in anticipation, I am

Yours very truly,

Secretary.

Dear Sir,

We thank you for your letter of the 23rd October advising us of four coins of Metapontum, which have been purchased by Members of the Society for which we enclose invoice.

We note that Mr. Wayte Raymond wants certain coins of those now in your hands, but as we have sent the consignment to you and Mr. Raymond has not written to us, we prefer to deal only with you in the matter.

We are glad to have been of any service to you in your work, and quite think it may be the means of creating a new interest in the series.

With reference to your further letter, the first of the Supplementary volumes of the "BIOGRAPHICAL DICTIONARY" will not be ready for some time yet. Alphabetically, the work is complete in the six volumes now ready.

Dear Sirs:

I am in receipt of a notice from the Post Office Department that they are holding a book addressed to me, and mailed by you. I called to see this package, and from what I can judge from its appearance, it appears to be an unbound copy of the 6th volume of Mr. Forrer's Biographical Dictionary of Medallists. As I expressly asked for a bound copy similar to those you had previously furnished us, I am having the Post Office return this to you.

An additional reason for this course is because you addressed the package to me personally rather than to The American Numismatic Society- a course which is very unsatisfactory because our Library is entitled to free entry for books, whereas the individual officers of the Society do not have that privilege. I think this has already been explained to you on former occasions. If not, I trust the present letter will lay emphasis upon it to such an extent that the occurrence will not be repeated.

If you are unable to send me a copy in three-quarter black Morocco, with blue buckram(?) covers such as you have sent us for the preceding volumes, kindly so inform me.

Very truly yours,

Secretary.

Dear Sirs:

I beg to return, herewith, the single coin of Metapontum which I have been holding in the hope that one of our members would acquire it.

Referring to your letter about the Torre d'Ovo find, if it would not impose too great a burden might I ask that you let me have all the information in your possession regarding this find. As you know, I am attempting an arrangement of the coins of Metapontum, and the evidence of finds is of great importance. Magna Graecia finds, however, have not been adequately recorded and in consequence my task is a very difficult one. I received a great deal of help from the pieces of the Taranto find which you so kindly sent me; and in describing them, I am referring to them by your Circular's serial number so that they can easily be located.

Should you have information regarding other finds in which Metapontum pieces occurred - even though the pieces are not now available - I should greatly appreciate it if you would put me in possession of such facts as you may have.

I have asked Mr. Howland Wood, our Curator who is in London, to take up with you the question of whether you would be willing to send the entire series of Sybaris pieces which you listed in your Circular a year or so back. I think some of those came from the Taranto find, but a part at least, if I remember rightly, came from another hoard. I have already secured casts of Nos.55001 and 55006, so that I should not want those; and, unless 55002 is a variety of the one which precedes it, I should not want that. I should very much like to see the Croton series

56691 to 56743 inclusive, excepting 56738, 56739, 56740, and 56742.

As you will see, I am interested in the Imperf type rather than in the late double relief pieces.

While our Society has not large funds for purchasing, a number of members are interested in this field, and it is possible that as large a proportion as was the case with the Ekhyuntum consignment which you sent we would remain here. I assume, of course, that as with the Ekhyuntum statues, you would accord me the privilege of making casts from these pieces.

Very truly yours,

Secretary

Gentlemen:

A number of our members have been enquiring about the catalogue of the Sir Hermann Weber Collection which I understand is to be published by you. Are you yet in a position to say when you will have it completed? If the interval is to be a long one, would there be any possibility of your sending in proof form the section dealing with the Metapontum pieces? I should greatly appreciate it if this were possible.

With regard to Metapontum, may I trouble you about the coin of which I enclose a photograph? Mr. Bement tells me that he acquired it from you within a year or so. If it occurred in a find, it might establish a point which I am very anxious to make, and I should be very glad to have what information you may be able to give me concerning this particular piece.

Thanking you for your many previous courtesies, I beg to subscribe myself

Very truly yours,

Secretary

Dear Sirs:

Thank you very much for your letter of August 24th with information regarding a Metapontum stater and a word with regard to the catalogue of the Weber Collection. I note that you will send me proof of the Metapontum section as soon as it is in print, and I much appreciate your kindness. If there is any way by which you may lessen the delay of which you speak, I should be very grateful to you. Are the coins available for photographing? If so, and this is practicable, I should be very glad to bear the expense of having it done.

Please forgive my importunity, but I am confident that you will sympathize with my desire to overcome the difficulties which stand in the way of completing my work on this interesting series; and your many kindnesses in the past are my warrants for troubling you at the present time.

Dear Sir,

We thank you for your letter of September 3rd, and quite understand your desire to complete your work on the Coins of Metapontum. We are, however, quite unable to do more than we promised in our last letter. Two thirds of the Metapontum coins are sold, and gone out of our hands. Wax impressions have been taken of all the coins sold; the electrotypist will make casts and arrange them in plate order in rotation, and if we attempt to interfere with the order we may throw his work into confusion.

We will,however, do our best to help you, and in any case we can promise proofs and plates of the Metapontum section long before the first volume is ready.

If possible when the electrotypist comes to the Coins of Metapontum we will get him to make a duplicate set of the casts and arrange them in plate order, and send them to you.

Yours faithfully,

Gentlemen:

I have recently been endeavoring to get together data relating to the Military General Service Medals with the bars Fort Detroit, Chateauguay and Christler's Farm. I have been doing this for the purpose of writing a monograph on the subject in the series of Numismatic Notes and Monographs issued by this Society.

I find in the catalogue of a sale at Sotheby's in 1891, and described as the property of a lady and which I know to have been in the Collection of the late Mr. James Oliver of New York, a medal bearing all three bars and with the name inscribed ~~Juan Baptiste~~ Lapierre which was purchased by your firm. The Canadian records say, as far as I have been able to get the information, that the only medal with three bars was issued to Jean Baptiste Laslair; and this medal was recently sold in the Hunter Collection by H. H. Chapman of Philadelphia. It is quite possible that this is the medal which you purchased in 1891, and that the difference in the inscription is due to a typographical error.

I am anxious, however, to confirm this fact, and would be very glad if you could assist me in any way - either by information as to the present whereabouts of the medal, or anything else.

Very truly yours,

Dear Mr. Forrer:

Thank you for your letter of October 8th and for the plaster casts of the Weber coins which came yesterday. They are splendid. I think I have never seen finer casts - not even excepting those which came from Berlin.

I note that you are sending the plates and rough pulls of the catalogue. Please accept my warmest thanks for your kindness and consideration.

If you would care to send me a list of the prices of the pieces in this collection which still remain in your possession, it is just possible that some enquiries here might lead to results which would be satisfactory to you. This is merely a suggestion, however. I should quite understand if you should not care to adopt it. My only thought is that with some of our members interested in my work on this series, there might be opportunity for their acquiring some of these beautiful pieces.

SASSANIAN COINS

BY

WM. H. VALENTINE

AUTHOR OF "COPPER COINS OF MUHAMMADAN STATES" AND "COPPER COINS OF INDIA".

The object of this work is to assist the numismatist in identifying and allocating any Sassanian coin he may possess. Every known work on this difficult subject has been consulted; but following M. Drouin's observation that any posterior work on the series must be founded on Mordtmann's essays combined with the plates of Bartholomaei, the author has laid heavy contribution on both and enriched it with remarks from Rawlinson. The result is remarkable, for by a little study any Sassanian coin can be at once attributed. The work is divided into three sections, viz: — Sassanian Kings, Arab Governors and Tabaristan Rulers; is illustrated by 80 coins drawn in the text; and accompanied with a reproduction of every known legend together with its transliteration and translation. Each type of coin is illustrated showing the distinctive headdress of every ruler; and an alphabetical list of the mint abbreviations is included. These tables, together with those of the Pehlevi Alphabets and numerals the student will find of the utmost value and assistance in lifting this class of coin to the position to which it rightfully belongs.

Two hundred and fifty copies only are being printed, and early application should be made to Messrs. Spink and Son, Ltd., 17 and 18, Piccadilly, London. W. 1.

Attention - Mr. L. Forrer

Dear Mr. Forrer:

I received the Metapontum didbol, No.746, from the Sir Herman Weber collection, and will remit for it in a short time.

I have been asked by one of our members to request you to send also No.739 (15/-). Also, you did not give me the prices on the bronze pieces which may be still in hand. Will you do this?

Very truly yours,

Secretary

Dear Sir

We have the pleasure of handing you herewith an illustrated Catalogue of the remarkable collection of English and Colonial Coins, Proofs, and Patterns, (Temp. George III. - Victoria) which is to be sold by auction towards the end of March, 1922.

This wonderful assemblage of magnificent Patterns and Proofs (many being unique or of highest rarity) has been entrusted to us to catalogue, and consequently the utmost care has been exercised to maintain the strictest accuracy in description of the pieces.

The entire Collection will be on view here until about the middle of March, and an inspection is invited at any time convenient to yourself between 10 and 4 o'clock (Saturdays excepted).

We shall be pleased to report on any lots in which you may feel interested, and give you a valuation of them free of any charge.

We also request the honour of being favoured with your commissions, which we will faithfully undertake for our usual fee of 5%, which fee includes carriage and insurance for any of the coins that may be purchased on your behalf.

In expectation of your valued reply.

Your obedient Servants,

For SPINK & SON, LTD.-

S. M. Spink.

Dear Sir,

By order of Mr. E.T. Newell we have begun to despatch, addressed simply to your Society, some of the purchases made by him from the Grand Duke Alexander. Consignments are to follow at a distance of two to three weeks, each containing 10 coins. The first has left this morning containing 8 Philips and 2 Demetrius Staters, and we should be grateful if you would kindly acknowledge safe receipt.

Dear Sir,

Last week we sent by registered book post in two packets a copy of the first volume of the Catalogue of the Weber Collection, text and plates, addressed to the Society which we ask you to kindly hand to Mr. E.T. Newell.

Today we send a second copy which we ask the Society kindly to accept for its Library.

If you can see your way to give the book a favourable notice in the Journal or elsewhere we shall esteem it a favour.

The price is £3.3.0d. nett and we hope the work will be complete in three volumes. The second and third volumes will be larger than the first, but we hope to be able to make the price of the complete work £10.10.0d. which will be considerably under cost.

Dear Sir:-

I am enclosing herewith bill for 1922 and 1923 dues. The non-payment of the bill for 1922 has probably been through an oversight or because the appropriation for the year had not been received. May we not hope for an early reply, as the Council meets on January 12th and it is apt to take action upon the delinquents.

Your interest in this Society in the past makes us feel that in case you do not care to continue as a member, you would prefer to pay the arrears and present your resignation in due form. We hope, however, that you will continue your membership.

Dear Sirs:

In response to your letter of October 19th, I beg to advise that the medal for the crossing of the English Channel by the King and Queen of Belgium was a limited subscription, and that no further copies were obtainable after the subscription closed.

It is just possible that we may receive, from the Estate of Mr. Saltus in the course of the coming weeks, a number of these medals which he had made for his personal use. Please let me know if this rather indefinite date will be too late for your purpose.

Very truly yours,

Secretary.

Dear Sir,

We have pleasure in sending you under separate cover for the Society's library a copy of a work we have just published on the Roman Imperial Coinage by H. Mattingly and E. A. Sydenham.

Such a work in English at a popular price has been a long-felt want. It has been more expensive to produce than we anticipated; but we have decided to sell it at the price we first announced, viz. 15s, and postage 1s extra.

We trust you may see your way to notice it in one or other of your publications.

Thank you very much for the copy of Roman Imperial Coinage by Messrs. Mattingly and Sydenham. We are very glad indeed to have it for our library, and I believe I can arrange to have it reviewed in a way which will be of service to you.

A very hasty glance at it shows that it is a very attractive volume and one which promises to be very useful. The plates are particularly fine.

Attention - Mr. L. Forrer

Dear Mr. Forrer:

In thinking over your recent letter with regard to the coins of Metapontum in the collection of Sir Arthur Evans, I am wondering whether there are any pieces of other South Italian Mints available - especially the smaller denominations of Croton, Caulonia, Poseidonia, etc.

As you know, I am in no position to purchase high-priced rarities, but if there are unusual issues of the smaller denominations at not prohibitive prices, I should be very glad to have you send them to me. I will see that they are returned to you with as little delay as may be, under the circumstances.

Sincerely yours,

Secretary

Dear Sir:

Referring to your correspondence regarding the coin of Posidonia concerning which there was a mistake in listing the price: This piece was selected for my own use, and, even if the valuation of £10. did not seem excessive in view of its condition, I should be unable to afford it.

Consequently, I will return it to you with the consignment which arrived during my absence; that is, within a fortnight.

THE ROMAN IMPERIAL COINAGE

VOL. II. (VESPASIAN TO HADRIAN)

BY

HAROLD MATTINGLY, M.A. & EDWARD A. SYDENHAM, M.A.

568 + xvi pages, 16 plates, crown 8vo, sewed.

The Publishers have pleasure in announcing that the second volume is now ready, in which the Editors have had the valuable help of L. A. Lawrence, Esq., F.S.A., for the coins of Hadrian. It has proved to be of very much greater bulk than Vol. I.; and as it had already appeared that the former volume was under-priced an increase cannot be avoided. **Vol. II. is therefore priced at 26s. net.; and from 1st January, 1927, Vol. I. will be priced at 20s. net.** Until then it is on sale at 16s. net.

With the completion of the second volume it becomes possible to offer a forecast of the future progress of the work.

Vol. III. will comprise the period from Antoninus to Commodus and will probably make one large volume. Vol. IV. will carry on the story from Pertinax to the reign of Aemilian and will probably be issued in two parts. Volume V. will complete the period from Valerian to Diocletian.

Vol. V., in which the editors are fortunate to have the assistance of Mr. Percy H. Webb, **will be the next to appear.** Owing to its length it will be necessary to publish it in two parts with a continuous pagination: the first describing the issues of the empire, the second those of the rebels in Gaul, Britain, etc.

It is hoped that Volume V., Part 1, will be ready in the Spring of 1927. Part 2 about the end of the same year. Vol. III. should follow in 1928-9. Vol. IV. in 1930-31.

The publishers still hope to be able to issue the volumes, or parts, at an average price of one guinea each, but it is impossible to fix the price beforehand of any particular volume.

Dear Sir!

On checking our accounts with Mr Lloyd, who purchased the Evans collection, I find that on our Approb Note 2805 and Invoice G 6308 I made a mistake in charging 10/, instead of £10 for Posidonia, n° 375.

I do not know if it is still possible to rectify the error, which is entirely due to an over-sight of mine. Should you wish to return the coin we shall of course credit you with 10/.

The McClean Collection of Greek Coins contains rather more than ten thousand specimens, of which the three thousand coins from the mints of Western Europe, Magna Graecia and Sicily were described in Volume I. The present volume deals with more than four thousand coins from the Greek mainland, the Aegean Islands and Crete. There remain rather less than three thousand coins of Asia Minor, Egypt and other outlying parts of the ancient Greek world. In describing the coins a geographical arrangement has been followed.

Dear Sir,

As Mr Lloyd accepted the offer of £18 for nos 4 and 8 on consignment 2838, I feel sure that he will take Mr W. Sidney Beatty's offer of £7 for no 9 and I therefore enclose our invoice for that item.

I do not think Mr Beatty had any of the Evans coins when in London, as on these coins we are not allowed to give any discount, except in special cases.

I could send you a further consignment of Evans coins, with your kind permission.

I beg to reciprocate cordial New Year's greetings, and remain, Dear Sir,

Yours obediently

Gentlemen: Attention Mr. Forer

Under separate cover today I am sending you the coins on your consignment 2838 together with the Poseidonia on which there was a mistake in the price (10 S. instead of £ 10.) As I wrote you last week, I am retaining #9 until I have a return from you regarding Mr. Beatty's offer.

May I ask that you send me at your convenience such incuse coins of Metapontum as you may have in your stock, even if they have more than one specimen for any given pair of dies? If these are not very numerous, you might include the incuse pieces of other mints as well. I should also like especially fractional denominations, but only in the incuse. May I say that I will promise not to ask you to make reductions from the prices you may indicate? But in view of this, I should appreciate it, if you would see to it that the prices are the lowest that you can accept for the coins you send. There are several of our members who are interested and it may be we can keep a number of pieces.

With appreciation for your previous courtesies, I am very

Very cordially yours,

Gentlemen:

Thank you for your letter of the 14th ordering three copies each of Wood--Coinage of West Indies and Williams--Coinage of Latin America. The books are being sent to you under separate cover and I am enclosing here our memorandum allowing you our discount to publishers of 15%, which is the maximum permitted by our Council. You will observe that these books are excerpts from the "American Journal." Should you require further copies, they can be provided at the same rate. It will be necessary to provide an interval in which to have them bound.

May I avail myself of this opportunity to order a copy of the book on the medals of Matteo Dei Pasti at L 2?

Very truly yours,

Herewith I am enclosing check to your order from W. Gainey Pratty of £ 7 to cover the accompanying invoice. This should clear up my account with you to the present date.

I note what you say about sending further selections from the Swans coins. We should be glad to have you do this under the usual conditions of their being strictly on approval and solely at your risk. There is always the possibility of there being something attractive among them.

Dear Sir,

We beg to confirm our letter of the 5th inst. and thank you for the remittance received this morning of £39.10.0. for the outstanding amounts for Nos. 2, 4, 8 and 15; also £55.0.0.

We would draw your attention to the fact that the Grose Catalogue is only £5.5.0, whereas the Central Union Trust Company have remitted £55 for this item. We have therefore placed the difference of £49.15.0. to the credit of your account; if you would prefer it, however, we will send you back a cheque for the amount.

Gentlemen:

Your communications of the 5th and 7th of February have been duly received. The remittance of £ 39.10.0 pays up the first two items on the bill which I am returning.

With regard to the matter of the payment for the Grose catalogue for £ 55 instead of £5.5.0, it would simplify matters if you would send us your check for this difference. With these adjustment, our accounts should now be balanced, should they not?

The first three consignments ~~only~~ of the incuse coins has been received and it is too soon to make any comments.

Gentlemen:

Herewith I am sending a statement concerning the coins which you recently sent me on consignment, together with the draft of the Central Union Trust Co. for £69.1. Together with this draft we are sending a second one for £1.14, which you returned to us because it covered a bill which had previously been paid. It is simpler now to have you cash this, which will make the total amount to be credited against the consignment £70.15. You will recall that this amount is to be supplemented with the check of Mr. W. Gedney Beatty of £22, which was sent you recently. On the accompanying statement I have listed the pieces which have been retained together with the amounts quoted in your invoice, the invoices being indicated by their serial numbers. I trust that you will find everything in order. The first two return packages were sent off by last Saturday's mail (May 7th) and the two others are ready for mailing by tommorrow's vessel.

May I call your attention to two pieces which I am returning; the first, No. 29, invoice 2953, is a fourree piece of Metapontum. It is listed at £3, which would be a comparatively high figure for it if it were a genuine piece. The second piece is No. 92 on invoice 2959, a stater of Caulonia, also plated as you may see by looking at the torso of the figure where the silver is worn through, showing a copper core. This is listed at £4, which would be a reasonable figure if the coin were not plated. If in view of these conditions, you will feel that you care to place a lower figure on these coins, I should be very glad to hear from you, as we might then consider purchasing them for our Museum's collection.

The first two packages of the last consignment--Evans coins of Sicily, have been received. I shall endeavor to make more prompt return on these coins. May I ask whether you have a considerable stock of the staters of the Corinthian colonies and if the prices are not prohibitive to have you send them.

Very truly yours,

Dear Sir,

We have received the returns from Appro. Notes 2952 - 53 - 54, but unfortunately several of the coins have come back to us broken in smithereens.

Invoice 2953, No. 2 priced at £4; invoice 2953, No. 25 priced at 10/-; invoice 2954, No.39 priced at 15/-, No.48 priced at £3, and No.54 priced at £5.10.0. These are in bits and only good to throw away.

Have you any remedy with your insurance people against the loss? We fear the coins must have been pressed down in the boxes when packing.

With regard to No.29 - plated coin- could you make us an offer for it?

Yours faithfully,
For SPINK & SON, LTD.

Gentlemen:

Referring to your letter of May 28th, marked LF/TT regarding returns from Appro. Note 2955, I think you must have failed to remember that the #64, which you cite as missing, was one of the coins purchased by Mr. Beatty. Settlement was made through his check for £22 sent you last month. This is the only coin on this sheet which was kept.

I trust that this will straighten out the matter.

Very truly yours,

Secretary

Mr. Leonard Forrer,

Dear Mr. Forrer:

Your letter of the 4th of June is at hand, telling me of the broken staters of Metapontum in the consignment returned recently. I am more distressed than I can well say over this condition. The No. 2, which you mention, was received by us broken, as I think I wrote you some time since and for this reason in giving them to our man for packing when they were returned, I expressly directed that especial care be used. Inasmuch as a number of pieces had been taken out, there seemed no reason to suspect that they would be more crowded than they had been when they came.

I am taking up with our postal authorities to see whether it is possible to collect anything, but I doubt very much that we shall be successful if you signed for the package as having been received in good order. In any even the maximum indemnity would be $10.00 per package and, I believe, there were not more than two packages containing broken pieces. Will you advise me on this point immediately.

May I suggest also that you send us the broken pieces - it may be that if they are not varieties already in our collection, that we can patch them up and that for scientific purposes they would have some value. Please let me know whether you feel that the condition of the packages when received showed that our man had not been properly careful in packing them and that we should bear some part of the loss involved.

I regret exceedingly that this breakup occurred and now wish that I had packed them myself. Awaiting your response, I am

Dear Sir,

We thank you for your letter of the 14th and 20th ult., and have also received the three packages with the coins returned, as well as your draft for £6 on account of Mr. Beatty. We note that you are sending us a draft to cover the balance, and shall acknowledge same upon receipt.

With regard to the broken Staters of Metapontum, we return Nos. 2, 48 and 54, Nos. 25 and 39 were pounded to dust and we are consequently unable to send these to you. Also we suggest debiting you with the cost of the pieces, and are not including No.2, which you state was broken on the outward journey.

We trust you may be successful with your postal administration , and shall await your news with interest.

Yours faithfully,

P.S. With regard to the packing, the coins had been placed in a small envelope tightly packed against each other with no padding around to prevent damage either from the stamping or in transit.

Gentlemen:

I beg to acknowledge receipt of your letter regarding the Metapontum coins which were broken in transit. As soon as the coins are received, I can take up the matter with the post office, although I have slight hope of retrieving any part of the loss. You did not answer my query as to whether the broken coins were in more than one package. Will you let me have this information at once. Also, are you certain that there was no cotton or corrugated cardboard enclosing the coins?

Regarding the consignment of Corinthian staters I am enclosing two checksfrom Mr. W. Gedney Beatty, one for £2 18 in payment for Nos. 31 and 44 and one for £ 2 10 in payment for Nos. 75 and 103. In addition to this we have selected coins totalling £115 8, and a detailed report regarding these will be sent you within the coming week and the remaining coins returned as promptly as may be.

Concerning you inquiry regarding the plated Metapontum coin, we should hardly care to offer more than £.1 for this piece.

Very truly yours,

Secretary

NEW PART NOW READY.

THE ROMAN IMPERIAL COINAGE

edited by

HAROLD MATTINGLY, M.A. & EDWARD A. SYDENHAM, M.A.

VOL. V., PART I. (Valerian to Florian)

By PERCY H. WEBB, M.B.E.

xiv + 424 pages, 12 plates, cr. 8vo, sewed - - - price 22s. net.
bound in art canvas, price 26s. net.

ALREADY PUBLISHED:

Vol. I. Augustus to Vitellius, 280 pp., 16 plates, 1923, sewed - - 20s.
bound in art canvas, 24s.

Vol. II. Vespasian to Hadrian, xvi + 568 pp., 16 plates, 1926, sewed - 26s.
bound in art canvas, 30s.

IN PREPARATION.

Vol. III. Antoninus to Commodus

Vol. IV. Pertinax to Aemilian.

Vol. V. Part 2. Probus to Diocletian.

The publishers have pleasure in announcing that the **first part** of the **fifth volume** is now ready. The second part, comprising the coins of the Gallic, British and other pretenders, is very near completion and should soon go to press. In this volume the Editors have enjoyed the great advantage of the help of Mr. Percy H. Webb, a recognised expert on the period.

The cost of printing has made it necessary to modify the plan of this part and to include in it 12 plates only. The price has been cut down to the lowest possible figure to bring it within reach of students, but **unless the sale at once exceeds that of Vol. II it will seriously prejudice the progress of the work.**

As far as the Editors are concerned, Vol. III is almost ready to go to press, and Vol. IV is already in preparation.

Whether the work can be completed as scheduled in the prospectus of Vol. II **depends upon our public.**

A hundred additional subscriptions would enable us to push on as fast as the printers would allow.

The publishers trust that all who are interested in the completion of the work will do their best to speed its progress, and **in particular will attempt to introduce it to Libraries,** in which it ought to have a place.

Messrs. W. Spink & Son Ltd.,
5, 6, 7 King Street,
St. James's, London, S.W.1

Gentlemen:

Your letters of recent date, together with the consignment of coins to which they refer, A, for Athens, and B, for Sicilian acquisitions, have been duly received. I note that you say you are sending them to me because you considered the returns from the Corinthian consignment very satisfactory. I do not want to seem captious, but the reason that the same result will not be obtained with these coins is that several of our members were interested in the Corinthian staters and that this is not the case with the last consignment; furthermore, the Corinthian staters seemed to me very reasonable in price, whereas the prices of the Sicilianspieces, to my mind, are exorbitant. I shall, however, show them to several of our members, and, except for one condition, there is not the slightest objection to your sending ~~some~~ consignments from time to time.

This one condition involves the safeguarding of the returning of the coins. When I first wrote you asking that you send me a selection of your stock of Metapontum coins, I stipulated that the risks of transportation were to be borne by your firm. Am I correct in understanding that you have some method for insuring the package that is returning from this side? With consignments of less value, one might be willing to assume this risk. The amount to be recovered by registering the coins is very slight. Please advise me therefore whether you have insured the return of this Sicilian consignment.

In an entirely different connection, I am enclosing a list of coins on which I should be glad to have you quote me for the pieces upon it which you have in stock. These are desired for an institution of this city which is using one or the other of the sides for enlarged medallions units in an architectural framework. I think you will find sufficient data to enable you to locate the variety. In case there is doubt, <u>if the values are not great</u>, you might send more than one specimen. I should prefer, however, that you send casts where the cost of the coin exceeds 20£. While condition is to be desired, extremes in price are to be avoided. We are asking one or two other dealers to submit pieces on this list in order that we may choose the more desirable coins.

That there may be no criticism of our Society on the basis of

having shown favoritism in the selection of the firms to which this letter has been sent, will you please keep the matter confidential. On receipt of your reply, I will again advise you as to any action that may seem desirable.

In connection with the still unsettled matter of the incuse Metapontum coins broken in transit, I regret to report that there seems little likelihood of any recovery from the post-office. About one-half of the cost price at which you have billed these is represented by the coins for which the Society would be willing to advance that amount. I have not yet been able to arrange for the balance. It may be necessary for me to assume this personally. I hope, however, to have the matter cleared up within a short time.

Very truly yours,

Secretary.

Attention of Mr.

Gentlemen:

Your letter of December 3d, together with the coins to which you make reference, have both been received. Several weeks must elapse before I can give you the decision with regard to these. I hope to be able to send them back along with the others that you have sent on consignment.

Referring now specifically to the last paragraph of your letter regarding the incuse Metapontum pieces broken in transit, I should be very glad if you would permit me to accept your suggestion that you assume the balance of this loss; that is, one-half of the bill which you have rendered me as the cost of the broken coins. Your bill amounted to £6/10, and we are sending through our bank a draft for £3/5, which our Museum is considering as the cost price of the fragments which you have sent us. As I have said before, I regret exceedingly that this contingency should have arisen, and, since it was no fault of yours, that you should be under the necessity of offering to share the loss, but you will understand that by so doing the explaining of an awkward situation will have been avoided. I trust that our experience will prevent a like occurrence in the future.

With cordial wishes that our relations during the coming year may be mutually beneficial, I am

Attention of Mr. Forer

Dear Sir:

Thank you for your letter of January 2d with its word of commendation for 'Metapontum'.

I note what you say regarding the credit to our account.

I am herewith enclosing a list of bids for the Ratto Sale at Lugarno, which one of our members has drawn up and which he asks me to forward to you because, not having had direct dealings with you, he prefers to be introduced in this fashion. You will see that most of these bids are low, but as most of them are for bronze coins there is a possibility that they might sell within the sums indicated. The rather lengthy memoranda and instructions at the end will hardly be as much of a complication as they would seem at first. In case you desire to correspond direct with Mr. Herrick previous to the Sale, there will be time I should think. Mr. Herrick has not been collecting for very long; there is a possibility that in the future his needs might be more considerable.

Dear Sir,

We thank you for your letter of the 11th inst. with the list of bids from Mr. Herrick.

We have been through his list, and found the prices so very much too low that we have despatched a cable to you, which we beg to confirm, asking you to suggest to him that we purchase coins on his account at our discretion up to some total.

We should, of course, be glad at anytime to undertake valuations of lots which Mr. Herrick would like to purchase, so that he would be able to form some idea of what limits to put on them.

Yours faithfully,
For SPINK & SON, LTD.

Attention of Mr. Forrer:

Gentlemen:

Responding to your cablegram, Mr. Herrick advises me that he concurs with your suggestion and authorizes you to use your discretion in making purchases of coins on his list, with a maximum expenditure not to exceed £15. He indicated that he would prefer to secure a larger number of less expensive coins than a small number of the higher-priced ones. I feel sure that with this additional outlining of his position you will be able to do as your cablegram promises, 'guarantee him satisfaction'. Thank you very much for having cabled.

With cordial regards, I am

Spink and Son, Ltd,

5, 6, 7 King St., St. James,

London,

Dear Mr. Forrer:-

As requested in your former letter, I beg to advise that I plan to return the consignment of Sicilian Coins sent me on approval - your list 5776 - on steamer sailing from here Saturday, March 3rd. This is for the purpose of your having the package insured from your end. Item No. 57 is the only one not being returned - this will reduce the valuation of the package to 335 pounds. (In two packages - evenly divided).

I hope to send at the same time your consignment of Atehnsan coins - Nos. 5767, 5768 and 5769. With these there has been more interest than I anticipated, and fifteen items are being kept - Nos. 1, 3, 4, 9, 11, 12, 13, 14, 18, 32, 36, 42, 45, 47 and 48. This leaves the total valuation of the portion being returned, £ 82 - 6 - 6. Probably sent in two packages - divided as nearly evenly as possible.

I have still the consignment of the special list I sent you - about this, I shall have to defer reporting for the present. I hope to be able to do so very soon.

Very sincerely yours.

Secretary.

Attention of Mr. Farrar

Dear Mr. Farrar:

Earlier this week I sent you, in two registered letters, the coins from your last consignment to me. These, you will recall, were intended for a bank which was using certain of the types as architectural details. The pieces retained by them amount to £20, and I am enclosing their cheque for that amount. I trust in checking up you will find the returned pieces in good order.

I am also sending you at this time a bid sheet for coins at the coming sale of Dr. Hirsch at Geneva (June 27th). This is on behalf of Mrs. George Cammann, one of our recent members who is a beginner in collecting. I am confident that you will give your usual careful attention to representing her, and I beg to assure you that your courtesies to her will be appreciated by us also.

Spink & Son Ltd
17 & 18 Piccadilly
London, W., England

Gentlemen:

Under separate cover, in two or more packages, I am returning your two consignments of the Athenian Tetradrachms of the new style. Owing to the financial situation here just now, there is no use whatever in trying to interest the few collectors who might otherwise consider these late style pieces.

You ask about the desiderata,-if you have any Staters of Corinth, or its Colonies, thatyou have not already sent us, you might send them if pieces at a high price are eliminated. After the first of the year, if you have any South Italian pieces of the smaller denominations which we have not already seen, you might send them also.

Very truly yours,

Secretary.

Dear Sirs:

We have your reply regarding our bill of December 4th, in which you state that the sum mentioned was paid by you and receipted by us. We ask that you kindly pardon our error. Owing to building operations the entire summer and fall, and the necessary moving of office equipment, our records have suffered somewhat. We hope to be excused this time and not to make such mistakes in the future.

Yours very truly,

Gentlemen:

The consignment of coins sent by you recently to Mrs. George P. Cammann, has been turned over to us, after she had selected certain pieces, with a view to seeing whether any of our members might care to consider some of the coins submitted. I have been asked whether, in my opinion, you would consider an offer of £ 30 for the pieces marked "D C 469 Syracuse" listed at £ 35, and my response was that I would submit the question to you. I hope you will feel that I have no interest other than in enabling you to make a sale, if it is possible for you to accept this offer.

Dear Sir,

We have offered to us a complete Collection of all the castings of medals and plaquettes by A. Liard of Paris. These are, of course, all originals, as Liard kept one specimen of each of the works that were entrusted to him by various artists, for his collection. It comprises 826 plaquettes, many of very large size, and 1103 medals, ranging from the works of Ponescarme to the more modern artists; an extraordinarily fine lot.

Should you be interested, we should be pleased to send you a summary catalogue of this collection, which also comprises works of V.D.Bremmer and some English and German Medallists.

Yours faithfully,

Dear Sir,

We thank you for your two favours of the 14th inst.

Herewith we beg to enclose the Summary List of the Liard Plaquettes and Medals, and in a few days we shall send you also the Card Index, with descriptions, sizes, etc.

The Collection is a most remarkable one, and the result of 50 years' work. Liard always prepared two castings, one for the artist and another for himself.

The Collection is to be sold en bloc at the price of F500.000 (about £4000). This is not exaggerated, as many of the Plaquettes and Medallions are individually worth from £16 to £30 apiece.

Yours obediently,

Gentlemen:

Under separatecover I am returning your several consignments of Corinthian Staters and other coins, Nos. 2647,48 and 2702,3. From these we have retained coins to the amount of £25.17.6, and a checque for this amount is being sent you through our bank.

There is an exception to the above statement with regard to coin #DC401, in consignment #2702, a bronze piece of Mesma for which your listed price is £10.0.0. Several of our members who saw this coin were interested in it until they noted the price. One of them voiced a willingness to pay £ 8.0.0 for the piece and I am communicating this to you in the event that you may care to accept such an offer, and retaining the piece so that the others might not be delayed in their return until I receive your response. If this offer appeals to you and you will kindly so inform me, a checque to cover will be sent you.

Thanking you for having sent these coins, I beg to subscribe myself,

J.W. Stowell Printing Co.,
Federalsburg,Maryland,

My dear Mr.Stowell:-

I have just received a reminder from the American Numismatic Society, that you have not yet delivered to them the 500 copies of the special reprint of their own membership list, as it was published in the A.N.A. Directory.

You will surely recall my placing this order with you, which covers a reprint of pages 104 to 113; and I had told you to go ahead with this reprint to the extent of 500 copies with cover, at $10.00 for the lot, as per my letters of August 22nd, Postscript, and summary attached to my letter of September 4th.

The American Numismatic Society is very anxious to have this order filled, and I had taken it for granted that you had long ago gone ahead with it, and made delivery to them. Of course, shipment should be made direct to

The American Numismatic Society,
156th Street & Broadway,
New York,N.Y;

and your bill should be sent to them also.

Please advise by return mail either to myself or the American Numismatic Society direct, whether you are taking care of this reprint.

Yours very truly,

MW/EW

My dear Mr.Noe:-

The above copy of letter is my answer to your query of the 23rd inst. It looks to me as though Stowell slipped up as he frequently does. I took it for granted that you had received delivery from Stowell long ago, and I should be terribly sorry if he has neglected my order, and by now destroyed the type of our booklet. But you can see that any neglect in this matter is in no way my fault.

Dear Sir,

With reference to your Order Blank of the 12th June for BUCKNILL "Coins of Dutch East Indies", we have pleasure in sending a complimentary copy for the Society's Library.

As to your order of the 10th June for PARUCK "Sassanian Coins," we have no copy in stock, and the London Agent tells us that the book is out of print. It was published at £5, and we have inquired everywhere for a copy, but can only hear of one in London, and that would cost you £7.10.0. if still available.

Yours faithfully,

Gentlemen:

Thank you for your letter of June 23rd, stating that you are sending us a copy of Bucknill's "Coins of Dutch East Indies." We appreciate your gift to our library very much.

As to Paruck's "Sassanian Coins", if you think there is no likelihood of being able to get a copy for less than £7.10.0, you are authorized to send us one for this amount.

Very truly yours,

Dear Sir,

You have allowed us on former occasions to send you selections of Greek coins, which you have kindly exhibited on our behalf at the American Numismatic Society for collectors to choose from.

We take the liberty of mailing you a consignment of 36 coins, chiefly from recent acquisitions in Italy and Sicily, and trust some of your members may avail themselves of the opportunity to purchase some of these.

The coins are sent in two registered letters, by different mails, and we thank you in advance for your great kindness in taking charge of our consignment and dealing with it.

Dear Sir,

Our client, Mr. R. Cyril Lockett, called in yesterday and saw the second part of your work on Metapontum. He expressed his surprise at not having received a copy of this second part as he supplied plaster casts and gave information as to the coins in this collection.

I take the liberty of letting you know this in case you should see your way to sending him a copy. You have, no doubt, received our last consignment.

Yours faithfully,
For SPINK & SON, LTD.

Gentlemen:

I am herewith returning the Roman coins which you sent us on consignment No. 7773. I hope you will not think me captious but there is really very little use of your sending high priced coins of this nature unless we ask you to do so, especially at this time of the year when so few of our members are here in New York. From time to time I have asked you to send pieces of the fields in which we were working or studying, and you have very courteously acceded to our request. In the present instance, however, I do not know of more than one of our members who is collecting in this field and none of these coins appealed to him.

If you have any staters of Caulonia or Poseidonia in double relief, not incuse, I should be very glad to have you send them to me at your convenience. I should prefer to have casts of coins valued at more than £ 10. rather than the coins themselves.

Very truly yours,

Dear Sir,

We feel we must apologise for having put you to the trouble and expense of returning our last consignment of coins, which has safely reached us, and for which we thank you. We had hoped that amongst the members of the A.N.S. there might be some collectors whom the Roman coins might interest, but we note, in future, not to send you any consignments on approval without previously advising you of same.

By the same mail, we have pleasure in sending you all the Caulonia staters we have in stock, of the double relief types. Unfortunately, we have no Poseidonia at present. Although our No. 1 is priced at £15. 0s. 0d., we take the liberty of enclosing the coin with the others.

With best thanks for all kind favours,

We beg to remain, dear Sir,

Gentlemen:

Referring to your consignment No. 7801 I regret to advise that none of these specimens meet our needs - either they are already in the collection or the prices are beyond anything we are in a position to pay. The first of these coins, which you have marked Cf B. M. 30 from Paris, and which is priced at £ 15 appeals to one of our members but he is not willing to pay more than £ 10 for it. I fear this is more of a reduction than you will care to consider but I mention it for your information. The coins are being returned herewith. Thank you for sending them to us and regretting that I am unable to make a more satisfactory response I am

Dear Sir,

We acknowledge, with thanks, your letter of the 16th instant, and also the coins from our Approval Consignment 7801, and much regret that you were unable to keep any of these.

With regard to No. 1, we much regret that we cannot accept £10. 0s. 0d. (ten pounds) for this. As a matter of fact, it actually cost us £12. 0s. 0d. (twelve pounds), but if a reduction of £1. 0s. 0d.
